

Coronavirus 2019 (COVID-19)

An outbreak of respiratory illness caused by a new coronavirus (COVID-19) has been identified starting in Wuhan, China. There is no evidence of widespread transmission of COVID-19 in California at this time. While investigations to learn more about the virus are ongoing, workers and employers should review their health and safety procedures to help prevent exposure to the virus.

The EDD provides a variety of support services to individuals affected by COVID-19 in California. For faster and more convenient access to those services, we encourage the use of our [online options](#).
